Arizona and New Mexico Guard Not on Hand Promptly and Makes Disappointing Showing in Arms and Equipment

WASHINGTON, May 19.-General Funston's re-alignment of the border patrol is being delayed, waf depart-

ment officials said today, by slow mobilization of the Arizona and New Mexico National Guard and by the disappointing showing in arms and equipment of some of the guard com-panies that have reported for service. Although it has been ten days since President Wilson called out the Texas, Arizona and New Mexico guardsmen for patrol duty along the border, their mobilization and assignment is far from complete. The Texas companies responded promptly, but in the other two states the call has not met with as quick a response as officials expected. In addition, so many companies in all three states have been strength that the probably a few hundred less. When the call was issued it was depended
